TESTIMONIAL

When it comes to searching information and organizing it, I am very disorganized and chaotic. Searching for the university that best fits your requirements is a tedious job. **EducationUSA** helped me immensely in the complex application process. Janet's advice and suggestions helped me take an informed decision about which universities I should apply to. I found that there is no middle way. I asked and received directly with the case team throughout the process. Janet's team organized my essay. I was able to interact with good students and visit officers from Harvard explaining the important aspects of Visa interviews. Janet's team and their team also helped me a lot to make me understand the visa process. I had the most amazing experience and am fully satisfied with their services.
